Pak Iqbal,

The said training above is mainly covering Caterpillar Propulsion ProjCalc software update and refreshment. This training is required to improve our capability in selection and sizing of Caterpillar Propulsion as well as propeller application since we are now

one of the Cat Dealer selected to distribute and sell Cat Propulsion System in the region. Kindly please assist and facilitate to enable Cat delivers that training in TU Batam office on Aug 14-16.

Pak Sumardi, are participants required to submit TOR to L&D to enable that training be recorded in their training history, and should this training be organized by L&D in collaboration with TU Batam?

Mas Jule/Mas Joko/Pak Tri,

On approval of Pak Iqbal, please assist to conform venue and internet availability, as well as meal and snack.

Subject: Trakindo CP Project Call Training - Update and Refreshing 2017

Dear Trakindo Team,

It has been awhile after first Project Call training been conducted to Trakindo team in Jakarta in first quarter 2016, since then we don't have a chance to make follow up courses to support you in the field. While there are many improvement and up-date in this software been implemented to make better user experiences and analysis.

With current though training schedules we had, I took liberty to put Trakindo team first for this refreshing Training, the date suggested is August 14-16, 2017 with location in Batam. The instructor for this training is Juliet Goh and possible one team from CP Production.

I would expect that your team can utilize this chance to help you and team increase your CP product knowledge and capability, in this year only this training will be available for dealer team to participate.

Please let me know if you have other suggestion to make use of this chance. This training is free of charge and I would expect Trakindo will help to provide the training place (Trakindo Office), projector, white board and marking.

Best Regards,
