Dear All,

Thank you for your time in discussion our progress for EMP Training requirement.

Here are the result of our discussion:

1. Caterpillar has introduce the C-Series GET. Pak Agus to check the availability of the training module for this GET.
2. Pak Agus check the Siemens Indonesia website to find out the list of available training and download the learning outcome, if any. The available training will be reviewed during workshop at Balikpapan
3. Pak Agus to call the Drill Product Grp. to check the availability for drill product training module. If not available, check the Sandvik website or others
4. Pak Darren plan to run the workshop to review all learning outcomes at Balikpapan (planned on Nov 1 – Nov 2, 2017).
5. Pak Iwan to prepare all the available learning outcome to be reviewed during workshop at Balikpapan

If any other concern or issue I miss please feel free to add

Best Regards,

Asep Koswara

[Dear All,](#)

I would like to update you all regarding this project from my side.

Task Number 1 from the Management Review Form which is part of my responsibility to complete it, here is the resume of the Attachment file (.xlsx) that already discussed with Pak Irwansyah and Team:

1. The blue one (highlight) on tab EMP Requirement: Already covered in Trakindo Training/Modules (ILT).
2. The blank one: CAT Web Base Training in DPC and mostly covered in Trakindo Training/Modules (ILT), just a few of the contents are not covered yet.
3. The yellow one: CAT Instructor Lead Training (ILT) and already covered in Trakindo Training/Module or still in progress to develop the Training Material.
4. The purple one: These are CAT WBT/ILT and currently not available anymore in DPC. We need to ask CAT Reps, let me check it.
5. The red one: Not covered yet and need Vendor to do it.

The next step is Task Number 2, we have to sit together in Balikpapan and discuss about it more detail and got the agreement on it. Because of that, we need the confirmation schedule from Pak Darren and Team. All of us from HO are available on week Oct 09th-13th or Oct 23rd-27th, please let us know the best schedule that matched with Pak Darren and Team. Pak Asep and Pak Agus will take a lead on this Task as agreed earlier.

Pak Asep and Pak Agus.

Please advise or give comment on it.

Gents,

Can we meet at HO on Thursday afternoon say 3:30pm to discuss the above. I have not seen any updates on the EMP Development pathway for some time and separately I want to clearly understand the proposed schedules, resource constraints, and key milestones to develop the HMS Electrical Training package (Which fits into the bigger strategy above).
