Subject: RE: Samarinda Visit Check Tools

Pak Chris,

Noted pak. mas beny will go to CRC Samarinda early next week (Monday, 2 April 2018) to identified directly related tools. Meanwhile, starting from today, he will send email to engine production department (disassembly, cleaning, inspection, and small engine assembly bay) to request detail list that they have.

From my point of view, it will be better if tools (special and hand tools) for process disassembly , cleaning and inspection made with general tools. So it have high flexibility to support every engine model.

Different with assembly process that has been separate into particular area

Please advice for any tough.

Thank you

Regards,

Johan Mahika

Subject: Samarinda Visit Check Tools

Hi Johan

Based on the updated timing plan issued today I need Beny to go up to CRC Samarinda to establish if we need any additional tools for Disassembly, Inspection & Engine Assembly for small engines based on the current timing plan.

Please include tools that are on the line and in the tool store. Please also look if there are any tools in the storage container that can help us with this project.

If any tools are required place orders ASAP and keep me in the loop.

Regards,

Chris Healy
