Recky, Juhandri

Apologies for making changes again but the for the Cat trainer to be able to provide the training and do the assessments for of the TU trainers he will require the participants for the operator training parts to be in Jkt from 8:00 am on the Morning of Wednesday 4<sup>th</sup> till lunch time Monday 9<sup>th</sup> (not Saturday as I previously advised) can you make the required changes to your flights and accommodation.

Also you should have received an e-mail from Mining Technology Academy advising that you had been enrolled in some on line training courses, you will need to complete these courses prior to the start of the formal training.

I apologize for the changes and the short notice to get flights and accommodation arranged and short amount of time that you have to get the on line training completed

Recky, Hisyam

Sorry for the late feedback on the training but I have just received the itinerary for the operator training section of the overall training and the dates that you are required to be in Jkt are

8:00am Morning of Wednesday 4<sup>th</sup> through to Lunch time on Saturday 7<sup>th</sup> of April, I understand that this involves working and traveling on the Saturday but due to the availability of the Cat trainer we do not have any other options.

Can you make the required flight bookings to be in Jkt as per the above times and dates

As you may have heard the BUMA MineStar implementation is not going a smoothly as expected and we believe that some of the issues are due to the training or more the people that performed the training for the BUMA operators and Operations personnel. We are arranging a 2<sup>nd</sup> round of training and this time would like to try a different approach with the people that provide the training.

For the Operators if you agree we would like to use Recky Laoh, as Recky's background is from operations he seems to be able to communicate with the operators better than training personnel from the training center. What we would like to do is utilize Recky to present the training materials with the support of Cat trainers that will also be present during the training.

I do not have the firm training schedule as yet due to waiting on confirmation of when the Cat training people can get visa's and permits to go to site but we expect the training to be carried out over the last 2 weeks of April but would like Recky to go to site prior to the training so he can see the BUMA operations are at Adaro so he has an understanding of the current mining process and practices to allow him to be able to deliver the training with some understanding of the operating conditions.

Can you advise if we would be able to utilize Recky for periods through April and possibly May to assist us in providing the training.
