Pak Edi,

I suggest we start at 09:00 as based on previous experience, it will take about 90 minutes for safety induction and overview presentation & discussion and then 90 minutes for facility tour.
Do you want us to arrange lunch before going to KM13?

Please also confirm if there are any other visitors from Trakindo apart from you? We need to know total numbers.

Pak Edi,

Thanks for info. We can accommodate a visit on that date after 09:00 as we have Safety Talk for all employees every Monday morning at 08:00.

Please advise on the itinerary for the visit and who from Trakindo HO and Area will be attending.

Simon,

Noted and very appreciated, I will propose to them from March 13th, 2019 onward for this purpose and agreed that no need detail and will treat like a SIS visit previously, from CRC just help to provide general presentation and detail and the way we manage Customer will be my responsibility.

The objective was we in progress discussion with this customer to educate them in term of components forecast and we have advised that if we can get planning in advance and they are committed with the plan then we will have prepare better support for them in term of components support and option need to prepare if components not available

I will give you and team update if the schedule match with them

Thanks

Pak Edi,

We are not in a position to accommodate this customer visit next week as have a number of key team members away on leave.

We could accommodate a short facility tour the following week (from 13th March) but CRC will not be entering into any detailed discussions with the customer as this is a major accounts / sales role.
