Dear Pak Dimas/Esther,

We are still waiting for the Panel engineer to confirm on your proposed date.
In the meantime, Please find below Trakindo Engineer & Instructor MCU & T-Bosiet for your review.

We understood the boat that going offshore is only available once a week on every Wednesday.
Since we will only have training for 1 day, would it be possible to arrange a vessel/boat for the training instructor to demob earlier?

In addition, please ensure the modbus gateway is delivered or install at site.
This is to ensure that we can clear all outstanding item & testing it on this offshore commissioning trip.

Thank you.

Dear Pak Dimas / Pak Benny,

MCU with AME assessment can be done at **Siloam Hospital Sby and Semen Gresik Hospital.**

understand that it is very difficult to find a hospital which is green from covid history, we only remind personnel to follow the protocol. The petronas matrix has complex items and can only be found in big hospitals.

Basically mcu can be done at all hospitals, and ame certificate can be endorsed at the provider in the list below, but it needs more time to do and we have suggested you to mcu and ame endorsement included at one hospital.

Currently we are having difficulty in getting the completeness of MCU because of the PPKM which extended to 2nd august 2021. Also the hospital is full of covid patient.

Would it be possible for us to board the rig with the existing MCU that was sent?

Appreciate your advice.

Thank you.
