Hi Sentosa,

Good day to you.

Could you advise whether if any of the delegates require us to make any lunch plan within factory premises as we understand the travelling period falls within the month of Ramandan, please? If a planned lunch is required, could you specify to us whether if there is any dietary concern?

Please note that it is no longer possible to change any test date due to unavailability of FAT slots within the month of June. Otherwise, this will cause delay to RTS for the gensets.

Hence, could you get back to me with his passport details latest by this Friday **19-May-2017 and no later** as we need longer processing time due to additional approval is required prior to issuance of Invitation Letter to any PLN official, please?

Last but not least, please ensure that there will be no change to all named delegates provided before 19-May-2017 for security clearance reason. Thereafter, we are not able to guarantee that access will be granted to any other individual from entering into factory.

Thank you.

For now, please book the name for sewatama personnel first. From Trakindo will either be myself or the project guys. I will send the detail tomorrow.
